## THEO. P. HAUGHEY, Pres't. H. LATHAM, Cash. CONDITION OF THE MARKETS

Wheat Opens with a Weaker Feeling, but Heavy Buying Causes a Change.

And the Market Closes Strong and Higher-Corn Steady at Better Figures-Provis-

ions Moderately Strong and Higher.

## MONEY, BONDS AND STOCKS.

A Dull Market in New York, a Majority of the List Selving at Lower Figures. NEW YORK, May 14.-Money on call was

easy at 14 22 per cent., the last loan being made at 14, closing offered at 14. Prime mercantile paper, 41 261 per cent.

Sterling exchange was fairly active and steady at 34.861 for sixty-day bills, and \$4.884 for de-

The total sales of stocks to-day were 167,843 shares, including the following: Delaware, Lackawanna & Western, 6,020; Erie, 4,010; Lake Shore, 3,650; Missouri Pacific, 5,150; Oregon & Transcontinental, 6,065; Reading, 47,364; Richmond & West Point, 21,180; St. Paul, 17,476; Union Pacific, 13,620; Western Union,

The stock market to-day was very dull, except during the first hour, and while the general drift of prices was upward in the forencon they reacted later in the day. The trading was more uninteresting than on any day during the past month, and outside of a few shares there was no movement of any kind. The London figures came higher this morning, and this market responded to a limited extent, first prices being to per cent above those of the close on Saturday, but there was very little doing outside of Reading and Richmond & West Point, the former being active and strong on a rumor that arrangements had been made for the placing of the new fours in London during the current week, and the latter was aided by the contest for control at the coming election, and displayed more strength than any other stock on the list. Oregon & Transcontinental and Missouri Pacific were quite strong at times, and moved up something over a point in the forenoon, followed by Western Union and Union Pacific. But the traders made a demonstration against the list and most of the advance made in these stocks were afterward lost. The annual election at the Stock Exchange had something to do with the general apathy though the interest was not extreme in it. In the afternoon the market became extremely dull and somewhat feverish, with a general beavy tone, and except in Richmond & West Point, prices yielded slowly throughout most of the time. The comparatively small offerings of bonds to the government were given as the pretext for this movement, but it did not reach very large proportions. St. Paul was the only stock showing a market movement in the afternoon, declining at one time ? per cent., but toward 2 o'clock the market became stagnant and finally closed duil and about steady. Closing prices show changes about equally divided between fractional gains and losses, the only important change in the active list being an advance of 12 per cent. in Richmond & West Point.

Railroad bonds were in better demand at advancing prices, the sales amounting to \$1,429.000. The strong tone continued throughout the day. and final changes are almost invariably in the direction of higher prices. Houston & Texas firsts rose 21, to 117; Indiana, Bloomington & Western second certificates, 3, to 70; Great Western firsts, 5, to 111, and Cedar Falls & Minneapolis firsts lost 5, at 70.

Government bonds were quiet but strong.

CHICAGO, May 14.—The "bulla" were divided in wheat to-day. Prices opened ic higher than the close on Saturday, and a large operator and very many small ones turned seilers. The heavy realizing caused a decline from the open-ing figures of 20 to 10, but the country was buy-ing and the influences were for higher prices, and they came. About 11 o'clock it was known positively that the decrease in the visible supply would be very large, perhaps 2,000,000 bushels. On the strength of this knowledge the opening prices were based. Additional reports were wired from Ohio and Indiana, saying that the wheat growing in those States would yield but little more than that needed for seed and consumption. It was 12.20 p. w. when the wieible apartir tion. It was 12:30 P. M. when the visible supply figures were posted, and showed a decrease of 2,046,000 bushels. The growing feeling of strength in wheat culminated during the last fifteen minntes of the regular session, and prices went beyond all former bulges. June opened at 89c, declined to 88½c, reacted to 89c, sold down again to 88½c, again reacted, touching 89½c, and closed at 89½c. The situation in corn was strong. May sold highest op the opening, at 60½c. Later sales were ½c to ½c under this figure, and the closing price was 59½c. Other futures opened firm and higher, dropped back ½c from the highest price of the morning, and rallied again with wheat, and, like wheat, made a sharp advance before the close. July sold from 58½c up to 58½c, back to 5½c, and up to 58½c, closing at 58½c or about ½c, over Saturday's close. The visible supply decreased 2,449,000 bu. Oats, like corn, got some strength from wheat. The small local stock, 1,202,000 bu, also made May strong. May opened at 35c, sold between 34½c and 35½c, and closed at 35½c. July opened at 34c, sold between 33½c and 34½c, and closed at 34½c. Provisions were moderately stronger and higher in the face of large receipts of hogs, and a decline of 5@10c in prices. The latter, however, was offset by the strong and advancing wheat culminated during the last fifteen minever, was offset by the strong and advancing tendency of grain. Pork advanced 20c. Short ribs were sold quite freely by packers, and remained steady. July pork sold at \$14.40 @ 14 60 and closed at \$14.65; lard at 8.37 @ 8.52 c, and closed at 8.55c; short ribs at 7.67 @ 7.75, and closed at 7.77 c. The leading futures

INDIANAPOLIS MARKETS. Trade Drags with the Thermometer Nearly Down to the Freezing Point. INDIANAPOLIS, May 14.

Practically speaking trade is at a standstill. Weather which necessitates the wearing of s winter overcoat in the middle of May would naturally kill business for the time being. In the dry goods houses there was now and then to be seen LEATHER, HIDES AND TALLOW. a customer, but they took hold with caution. wondering whether they would be able to sell the goods did they order them. Prices, however, were steady and unchanged. No disposi-tion is shown to let down prices to secure trade.

Grocers did not feel the effects of the weather, as people will eat, be the weather seasonable or not, and they were having fair business, prices ruling steady and firm. The bulls apparently have the coffee market well in hand, and sugars are decidedly firmer in tone. The produce markets were tame. No one wants The produce markets were tame. No one wants early vegetables such weather as this, said one of the commission men. Butter and poultry coming in freely, and prices skaky. While eggs are scarce and firm, the egg market has been a surprise the last thirty days, prices ranging higher than for many years in the month of May. Strawberries were in light supply. So was the demand light, consequently prices did not jump up, as they usually do, when the supply is low. The wool market presents no new features. The cool weather is holding back the new clip. Millers report the demand for flour good, but prices too low to yield them are market. good, but prices too low to yield them any mar-gin. Wheat in light supply, and the millers are not attempting to run more than one-half their capacity. One class of men only were cheerful, they were the coal dealers, who are having quite a spurt of business, but they reduced the price of coal before this temporary boom in their trade came on. Other markets present no new features.

The movement of grain continues light. Inspector's report shows 20 cars inspected as against 13 cars Saturday. Attendance on change was good, but little spirit of trade was manifested. Wheat continues in good demand, with small offerings. No. 2 red is salable at 91 292c. Corn is quiet, with but little local demand. Ship pers report a fair number of orders. Indiana ear salable at 58259c for the city trade. The demand for corn products is very light which accounts for the small demand on the part of local manufacturers. Oats are higher and atronger. Local jobbers as well as shippers are in the market for both white and mixed grades. Feeds are weak with limited demand. Hay is strong. Although demand is less than a few days ago, yet all offerings are readily taken at quotations. Track bids on call board:
